QUARTERLY OPERATING REPORT PERIOD ENDED JUNE 30, 2017

TABLE OF CONTENTS:

OPERATING REPORT:	
ANALYSIS BY DEPARTMENT - OVERVIEW	2 - 7
BREAKDOWN OF OPERATING REVENUES - DEPARTMENT / TYPE	8
ANALYSIS OF REVENUES BY TYPE:	
NET MUNICIPAL TAXES	9
GOVERNMENT TRANSFERS	10
RETURN ON INVESTMENTS	10 - 11
SALES OF GOODS, SERVICES, AND USER CHARGES	11
RENTAL INCOME	12
COMMUNITY AGGREGATE LEVY	12
PENALTIES AND COST OF TAXES	12
OTHER REVENUES	13
BREAKDOWN OF OPERATING EXPENSES - DEPARTMENT / TYPE	14
ANALYSIS OF EXPENSES BY TYPE:	
SALARIES, WAGES, AND BENEFITS	15 - 16
CONTRACTED AND GENERAL SERVICES	16 - 17
MATERIALS, GOODS, AND UTILITIES	18 - 19
TRANSFERS TO LOCAL BOARDS AND AGENCIES	20
INTEREST AND BANK CHARGES	21
OTHER EXPENSES	21

Note:

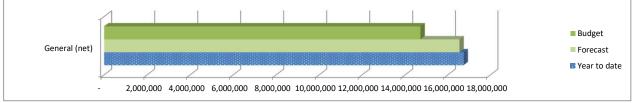

For display purposes, amortization expense of capital assets has been removed from the departmental expenditures, as this is a non-cash transaction and is only recorded at yearend. The approved budget is also displayed with amortization removed.

The quarterly operating reporting includes the financial information for the six (6) months ending June 30th. The actual figures have been compared to the approved budget for the year, and have also been compared to the forecasted figures for the 2nd quarter. The forecasted figures have been estimated based on the approved budget and the timing of the transactions and journal entries (i.e. regular transactions, such as payroll, are based on 50% of the approved budget; whereas, yearend journal entries are only recorded in the 4th quarter)

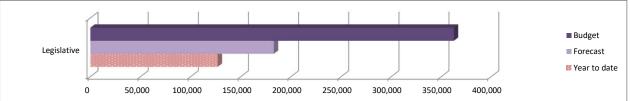

Analysis by Department

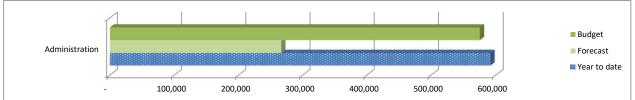

Budget is lower than the forecast & actual because the budget includes the full amount of school foundation requisitions. These come in quarterly while tax revenues are recorded in May.

Legislative - Expenditures

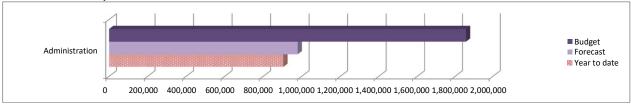

Budget is greater than forecast mostly due to that the forecast is based on a partial year. Year to date expenses are less than forecast mostly due to some of the Council per diems costs have not been submitted.

Administration - Revenues

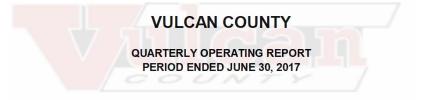

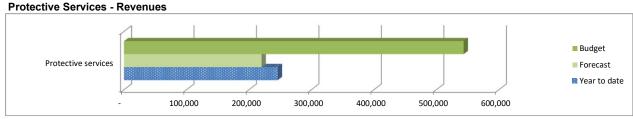

Budget is greater than forecast mostly due to that the forecast is based on a partial year and that some revenues such as tax arrears penalties are only forecasted in the 1st, 3rd, and 4th quarters. Year to date revenues are greater than forecast mostly due to an increase of approx. \$276,800 in penalties from taxes in arrears (majority from oil/gas companies that defaulted on their property tax payment plans).

Administration - Expenditures

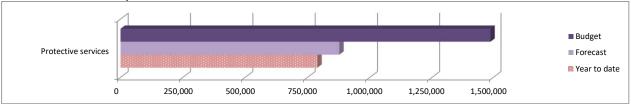

Budget is greater than forecast mostly due to that the forecast is based on a partial year and the recognition of prepaids are in the 1st quarter (i.e. insurance, software, etc.). Year to date expenses are less than forecast mostly due to some expenditures that were less than expected and some expenses are still to be incurred. Some of the expenses that were less than expected include salaries and benefits, insurance, and bank service charges. Some of the expenses that have not incurred yet include some of the education/training costs and audit services. These reduced costs are somewhat offset by the software costs being higher than forecast due to a large portion of the implementation of the asset management software being done.

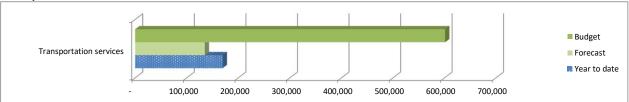

Budget is greater than forecast mostly due to the yearend adjustments for the recognition of the MSI operating and ACP grant funding of approx. \$101,700 and that the remaining forecast is based on a partial year. Year to date revenues are higher than forecast due to additional building rental income as well has higher cost recovery income from Carmangay and Champion.

Protective Services - Expenditures

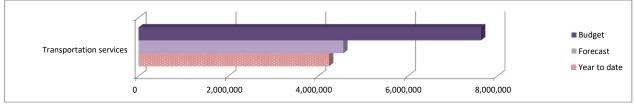

Budget is greater than forecast mostly due to that the forecast is based on a partial year, and that some entries such as honorariums are recorded at yearend. Year to date expenses are less than forecast mostly due to some expenditures that were less than expected and some expenses are still to be incurred. Some of the expenses that were less than expected include salaries and benefits and equipment repairs. Some of the expenses that have not incurred yet include some of the education/training costs and consulting services.

Transportation Services - Revenues

Budget is greater than forecast mostly due to the FGTF grant funding of approx. \$210,900 and the Community Aggregate Levy of approx. \$120,000 which are recognized later in the year and that the remaining forecast is based on a partial year. Year to date revenues are higher than forecast mostly due to some of the gravel sales and cost recoveries have been above what was forecasted; however, this is likely due to the timing of the year for these related sales.

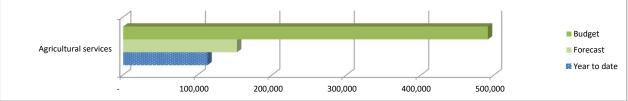

Transportation Services - Expenditures

Budget is greater than forecast mostly due to that the forecast is based on a partial year and that some costs such as seasonal staff, overtime, and road repairs start later in the year. Year to date expenses are less than forecast mostly due to some expenditures that were less than expected and some expenses are still to be incurred. Some of the expenses that were less than expected include salaries and benefits due to some vacancies, cost of tires, and equipment/vehicle repairs. Some of the expenses that have not been incurred yet include consulting services, the purchase of fencing material and tools/supplies, and recognition of expense from using culverts and blades which are currently in inventory. These reductions were somewhat offset by increases in gravel crushing costs from forecast from the gravel crushing program.

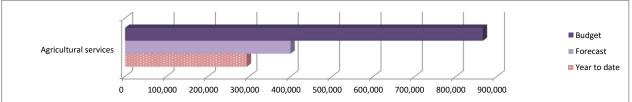

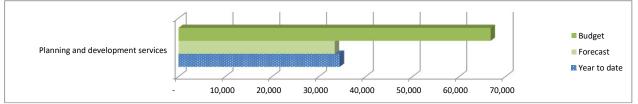

Budget is greater than forecast mostly due to the recognition of the ASB grant of approx. \$168,300, invoicing for the weed coordinator, and that the sale of pesticides are done later in the year. Surface rights revenues and some cost recoveries are forecasted based on a partial year. Year to date revenues are less than forecast mostly due to some of the surface rights revenues received were less than expected and have not been invoiced at this time.

Agricultural Services - Expenditures

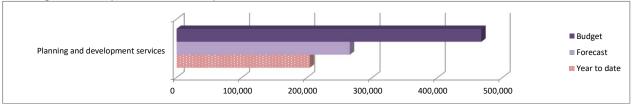

Budget is greater than forecast mostly due to that the forecast is based on a partial year and that some costs such as seasonal staff and purchase of herbicides start later in the year. Year to date expenses are less than forecast mostly due to some expenditures that were less than expected and some expenses are still to be incurred. Some of the expenses that were less than expected include building repairs, cost of fuel/diesel and utilities. Some of the expenses that have not incurred yet include some of the purchase of tires, tools/supplies, and some of the purchase of herbicides.

Planning and Development Services - Revenues

Budget is greater than forecast mostly due to that the forecast is based on a partial year. Year to date revenues are slightly higher than forecast due to higher than expected revenues on development permits which was sufficient to offset lower than expected revenue from safety code fees.

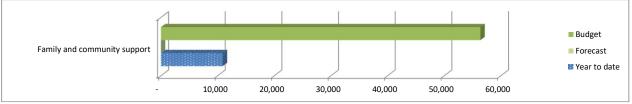

Planning and Development Services - Expenditures

Budget is greater than forecast mostly due to that the forecast is based on a partial year. Year to date expenses are less than forecast mostly due to some of the expenses such as legal costs and safety codes permitting are still to be incurred/invoiced.

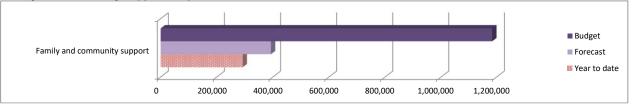

Family and Community Support - Revenues

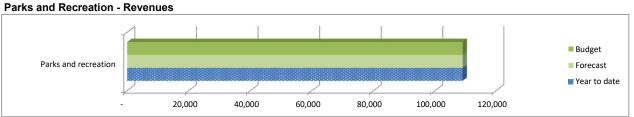

Budget is greater than forecast as the Town and Villages share of the Doctor Retention Program are invoiced in the 4th quarter. Year to date revenues are greater than forecast due to the investment income earned on the funds held for the obligation for the Vulcan Hospital Expansion Project which was not specifically budgeted.

Family and Community Support - Expenditures

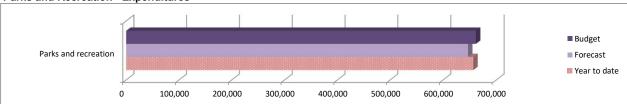

Budget is greater than forecast mostly due to that the total estimated contributions to the Vulcan Hospital Expansion Project of approx. \$915,000 for the year are projected to be accrued later in the year, the contributions to FCSS are done on a semi-annual basis, and that the remaining forecast is based on a partial year. Year to date expenses are less than forecast mostly because invoices for the hospital expansion have not yet been received, but also because not all doctor retention expenses have been accrued.

Budget, forecast, and actual revenue all agree as the annual MSI operating allocation of \$109,000 was fully recognized in the second guarter.

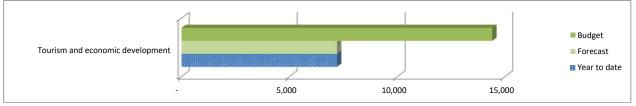

Parks and Recreation - Expenditures

Budget, forecast, and actual are very close because County contributions for recreation and culture were all made in the second quarter. Forecast is slightly lower than budget mainly due to library memberships being 1/2 recognized so far. Actual is higher than forecast mainly because of a \$10,000 expenditure on the food bank which was funded from reserves.

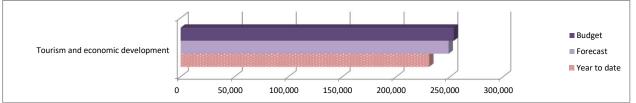

Tourism and Economic Development - Revenues

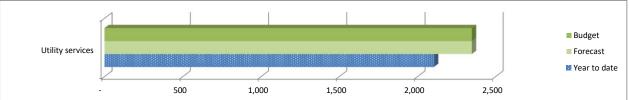

Budget is greater than forecast as the forecast is based on a partial year. Year to date revenues are equal to the forecast for the building rental costs to Vulcan Business Development Society.

Tourism and Economic Development - Expenditures

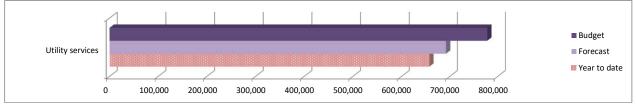

Budget is greater than forecast as the forecast is based on a partial year. While all funding requests have been paid, not all utility costs have been incurred as yet. Actual costs are lower than forecast because the County contributed \$17,250 less than expected to VBDS in 2017.

Utility Services - Revenues

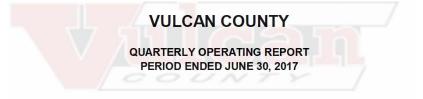

Budgeted amount matches forecast. Year to date revenues are slightly lower because there were three fewer parties invoiced for garbage services in Brant than anticipated.

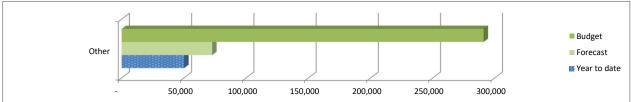

Utility Services - Expenditures

Budget is greater than forecast as the majority of the expenditure relates to the contribution to VDWC and is paid in the 1st quarter, where the remaining expenditures are based on a partial year. Year to date expenses are less than forecast mostly due to some expenses being less than expected such as legal expenses and equipment repairs.

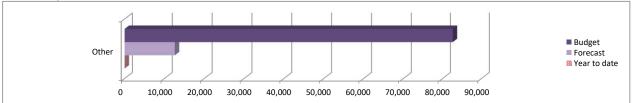

Other - Revenues

Budget is greater than the forecast and year to date revenues as the contribution from the Town for the Vulcan Hospital Expansion project is projected to be received later in the year as a matching contribution to funds raised by the Vulcan County Health and Wellness Foundation. Actual is lower than forecast because some additional contribution revenue could not be recognized until July.

Other - Expenditures

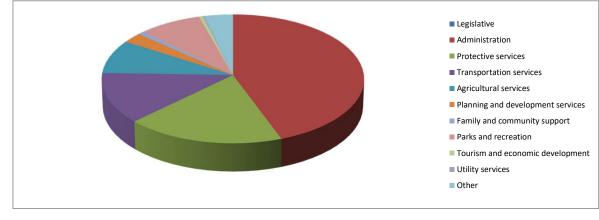

Budget is greater than forecast mostly due to some entries such as use of the contingency fund and tax write-offs are recorded later in the year. Year to date expenses are lower than the forecast as there has been no use of contingency funds.

QUARTERLY OPERATING REPORT PERIOD ENDED JUNE 30, 2017
