INTERIM OPERATING AND CAPITAL PLANS

VULCAN COUNTY, ALBERTA, CANADA

PREPARED BY VULCAN COUNTY: CORPORATE SERVICES DEPARTMENT DECEMBER 2020

3

THREE-YEAR OPERATING PLAN (2021-2023)

THREE YEAR OPERATING PLAN

The purpose of a three year operating plan is to provide an overview of the operating activities of the County for the upcoming years. This ensures that the County is not only prepared for the projected activities and service levels, but that the costs of these activities are planned in a fiscally responsible manner. The result is a greater level of stability of tax rates over the next three years.

These operating plans also allow the County to build-in projected increases in annual operating costs. An example of this is fuel; projected increases in fuel cost can be included and any other changes to fuel prices can be applied. This also takes into account the County's strategic plan and goals.

Planning of large scale operating projects, such as gravel crushing, is included in the operating plans to ensure that the County is preparing in advance for these types of projects. This can include building reserves over multiple years to fund a project, rather than fund those costs all at once in the year that it takes place with a resulting spike in tax rates.

The County has consistently budgeted this way in the past. Preparing a written plan, however, ensures that this process is formalized and that these types of activities are reviewed. The implementation of written operating plans was formally made a legislative requirement in Alberta in 2017, however County Council had chosen to begin creating these written plans prior to the requirement taking effect.

In the following pages, the 2021-2023 Operating Plan is presented, indicating the projected operating revenues and expenses of the County. Included in the plan is comparative financial data for the prior three years. This written operating plan will be reviewed and updated on an annual basis.

OPERATING REVENUES

The operating revenues for a municipality are typically budgeted on a conservative basis. Generally, this will involve taking historical revenues and adjusting for known future variances such as changes made to funding agreements, and adjustments to service levels.

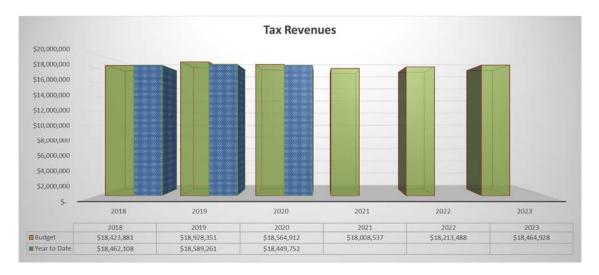

The revenues will often correlate to expenditures that are also projected, such as government grant funding of operating costs.

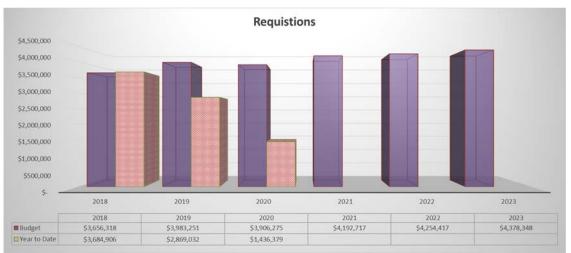

The following are the 2021-2023 projected operating revenues:

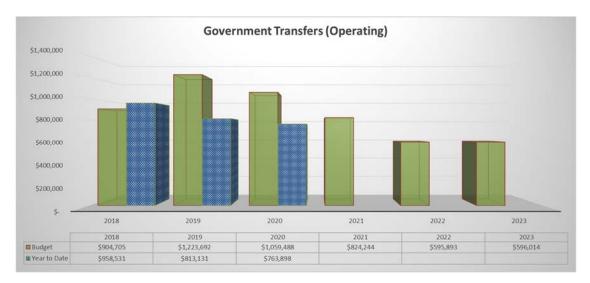

Vulcan County Three-year Operating Plan		Budget 2021	Budget 2022	Budget 2023
REVENUE:				
Net municipal taxes				
Real property taxes	\$	8,390,913 \$	8,457,029 \$	8,588,511
Linear taxes		7,584,370	7,642,119	7,758,644
Commercial taxes		817,826	818,048	818,486
Government grants in lieu of taxes		18,600	21,257	21,548
Special levy		1,196,828	1,275,035	1,277,739
Well drilling tax		-	-	-
		18,008,537	18,213,488	18,464,928
School requisitions		(3,504,760)	(3,504,760)	(3,504,760)
RCMP requisitions		(185,631)	(247,331)	(371,262)
Seniors foundation		(502,326)	(502,326)	(502,326)
		13,815,820	13,959,071	14,086,580
Government transfers				
Provincial government transfers - Operating		529,351	300,792	300,792
Federal government transfers - Operating		219,734	219,734	219,734
Transfers from Local Government - Operating		75,158	75,367	75,488
		824,244	595,893	596,014
Return on investments		403,764	407,679	415,587
Sale of goods, services, and user charges		970,909	687,922	688,101
Rental Income		314,880	315,380	315,380
Community aggregate levy		120,920	120,920	120,920
Penalties and costs of taxes		160,200	160,200	160,200
Gain on disposal of tangible capital assets		-	_	2
Other revenue				
Fines		41,500	41,500	41,500
Other		-	· ·	
	-	41,500	41,500	41,500
TOTAL BUDGETED REVENUES	\$	16,652,237 \$	16,288,565 \$	16,424,282

The tax revenues and the requisitions for school and senior support are budgeted based on the 2020 actual amounts. The final tax assessment figures for the County have not been determined for 2021 and we are not able to speculate on any potential changes in assessment.

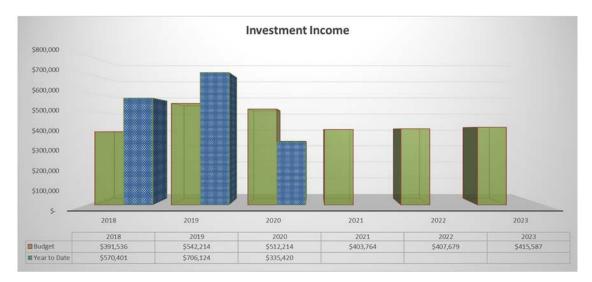

Last year saw a decrease in assessed values, particularly for linear property. Other assessment classes have generally seen some increase over the previous year. These figures will be updated in the 2021 Final Budget when new information becomes available.

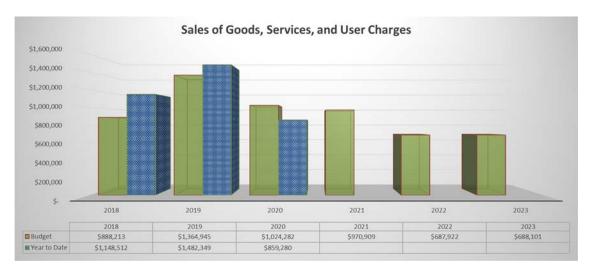

The majority of the government transfers for operations relate to the Municipal Sustainability Initiative (MSI) Operating grant, the Alberta Community Partnership (ACP) grant, the Agricultural Service Board (ASB) grant, and the Western Diversification grant. The MSI Operating and the ASB grant are based on prior year funding allocations. The ACP grant is based on funding agreements in place between the County and the Province.

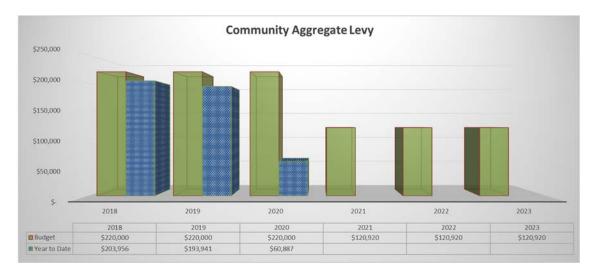

The investment income is based on previous years' interest and dividends received and was historically budgeted very conservatively. Starting in 2019, the prior years' figures and economic forecasts were weighted more heavily. With the recent decline in interest rates, the projection for 2020 has been reduced.

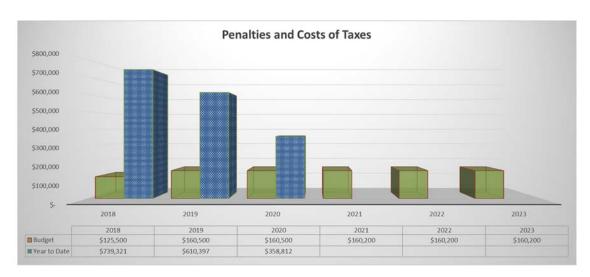

The sale of goods, services, and user charges include the sale of materials and supplies (i.e. gravel sales), surface rights, fees charged for services (i.e. permits, tax certificates, safety codes), and cost recoveries (i.e. dust abatement). Historical revenues are typically used to project these revenue sources.

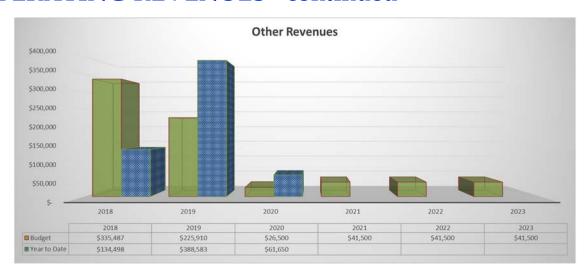

Rental income is based on rental agreements that the County has with the RCMP and Alberta Heath Services (AHS). There are also other rental agreements for buildings and equipment as well.

The community aggregate levy is the levy for transporting materials such as gravel and sand from gravel pits within the County and is intended to help offset the increase in road maintenance costs caused by these activities. The rate of \$0.25/tonne is set by Bylaw. Current estimates of revenue here are based on the previous 5 years of actuals.

The penalties and costs of taxes are the penalties charged on unpaid taxes and are added to the tax roll. As the actual outstanding tax arrears fluctuate from year to year, and is outside of the County's control, the budget uses a conservative amount. During 2017-2019, there was a higher than expected amount of penalties due to a couple of larger accounts failing to pay their property tax in a timely fashion. This is considered to be unusual so their effect on future projections has been limited.

Other revenues include fines, donations, recovery of accounts receivable, and other miscellaneous revenues. Most of these are not able to be projected; therefore, the budget currently only consists of the fines and other known revenues.

During 2016-2018, the County received almost \$1,000,000 in matching contributions from the Town of Vulcan for the Vulcan Hospital Expansion Project. As the full amount of the County and the Town's contribution to the project have been allocated, these revenues are no longer included in the budget going forward.

OPERATING EXPENSES

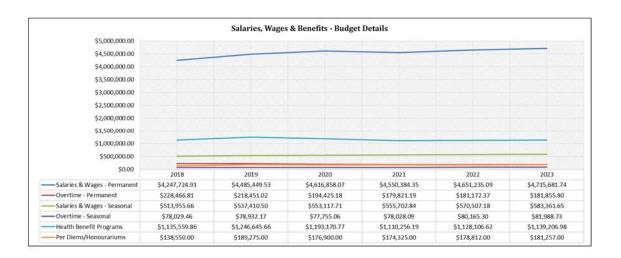

The operating expenses for a municipality are also budgeted on a conservative basis to ensure the budget is sufficient to cover whatever costs may occur and prevent the County from having to draw on reserves to fund a shortfall. This often includes adding amounts for unpredictable expenses like unexpected vehicle breakdowns and building maintenance.

Typically, these operating expenses are determined by historical trends, projected market fluctuations (i.e. fuel/diesel pricing), inflation, expected pay rates based on approved salary grids, and projected changes in service levels.

The following is the 2021-2023 projected operating expenses:

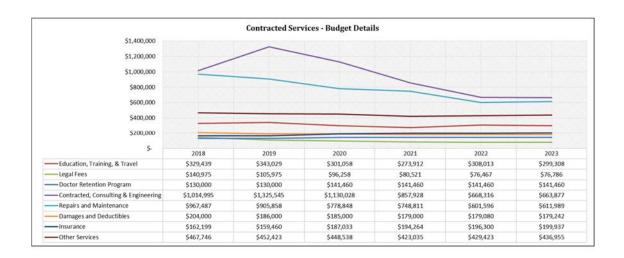

Vulcan County Three-year Operating Plan	Budget 2021		Budget 2022	Budget 2023
EXPENSES:				
Salaries, wages and benefits	\$	6,895,125 \$	7,042,841 \$	7,137,844
Contracted and general services		2,898,930	2,600,655	2,609,554
Materials, goods and utilities		2,437,559	2,361,344	2,394,339
Transfers to local boards and agencies		1,716,990	1,653,720	1,664,933
Interest and bank charges Bank Charges and Short Term Interest Interest on Capital Long Term Debt		17,300 40,059 57,359	17,473 40,059 57,532	17,822 40,059 57,881
Amortization of tangible capital assets		4,684,267	4,660,499	4,660,499
Machine expenses capitalized for construction		(1,684,546)	(1,684,546)	(1,684,546)
Loss on disposal of tangible capital assets		-	-	-
Other expenses Contingency Tax Discounts & Write-offs		22,500 12,672	- 12,578	- 12,578
Other		7,492 42,664	7,492 20,070	7,492 20,070
TOTAL BUDGETED EXPENSES	\$	17,048,348 \$	16,712,114 \$	16,860,574

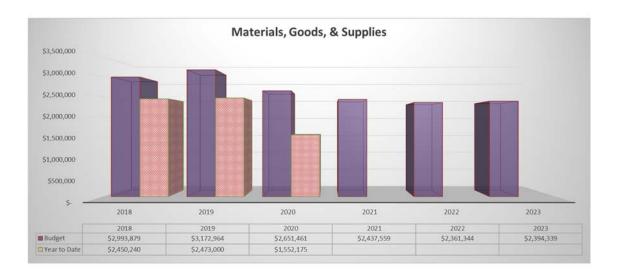

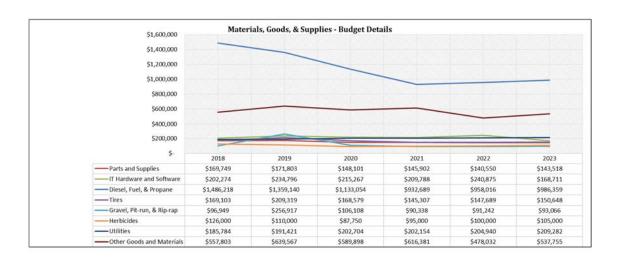

The salaries, wages, and benefits include all of the staff wages/benefits and Council per diems. All of these costs have the 2021 approved salary grid increases included which cover cost of living increases and staff grid movements, as well as projected new hires. These increases are projected at the same rates in 2022-2023.

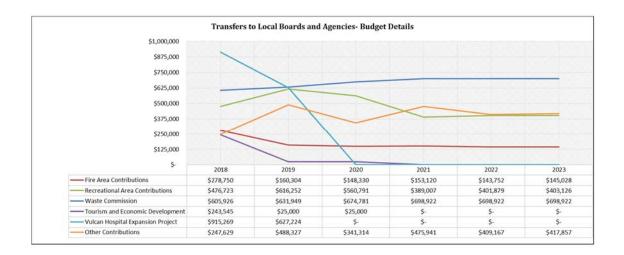

The contracted services include the costs of repairs and maintenance, consulting and contracted services, audit and legal fees, education, leases, telecommunications, insurance, and other services. Most of these costs stay consistent from year to year, but there are projected decreases in legal fees and consulting costs on development projects and mapping.

The materials, goods, and supplies includes the costs of supplies, utilities, information technology, fuel, gravel, herbicides, culverts, blades, tools, and other consumables. Most of these costs stay somewhat consistent from year to year, but not all do. For example, there was a large amount of gravel crushing being done from 2015-2017 which resulted in significant costs in those years.

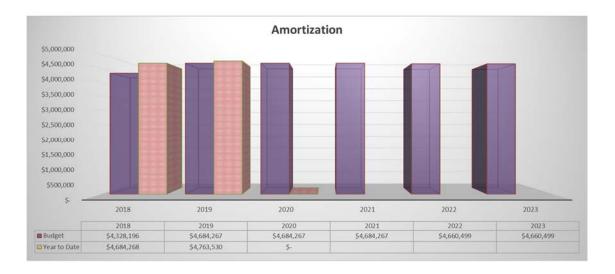

The transfer to local boards and agencies includes contributions to fire associations, recreation boards, tourism, waste and water commissions, and other community groups. The budgets are typically based on current year approved annual requests for funding.

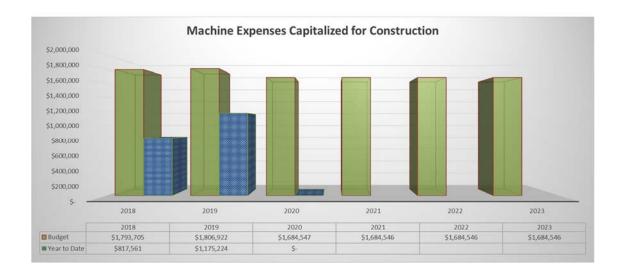

As previously noted, from 2016 to 2018, the County and the Town of Vulcan together contributed \$3,000,000 toward the Vulcan Hospital Expansion project. Those contributions were completed in 2018, hence the sharp decline in the graph above.

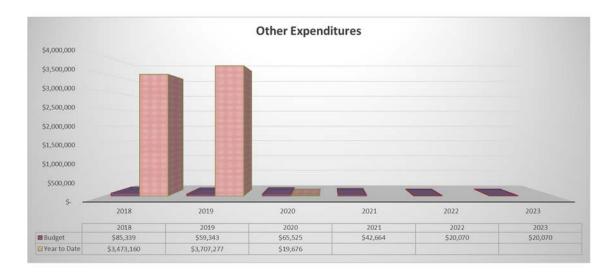

Interest and bank charges include standard banking fees, credit card fees, and the interest portion of debenture payments. The bank and credit card fee rates were able to be negotiated down from prior years and the County has implemented a "convenience fee" to recover the credit card fees we are charged for tax payments made on credit. In 2016, the County started to incur the interest costs for the Vulcan Hospital Expansion Project debenture.

Amortization expenses are non-cash expenses which recognize the cost of the County's tangible capital assets (roads, buildings, equipment) over their expected useful lives. This is offset by annual transfers to capital reserves which will be used to replace these assets when required. Amortization is increased each year based on historical increases.

The machine expenses capitalized for construction relate to the portions of operating expenses that were incurred during construction of roads and bridges. These costs are included in the other operating expenses areas, such as wages/benefits, engineering costs, gravel, and others.

The other expenditures include contingency expenses, tax and receivable write-offs, and other miscellaneous expenses. Most of these are not able to be projected; therefore, the budget currently only consists of the contingency and an estimate of bad debt expense.

Note: 2018 & 2019 includes write-offs of property taxes for some large oil & gas accounts that went insolvent. The County exhausted all reasonable efforts to collect funds on these accounts over the last three years including various legal proceedings.

RESERVE AND CAPITAL TRANSFERS

The operating budget also includes reserve and capital transfers to provide sources of funding for certain purposes and to plan for future years. Total operating revenue less operating expense will result in a surplus or deficit, which is then transferred to or from capital or reserves with the goal of having no net effect on accumulated surplus.

The following is the 2021-2023 projected reserve and capital transfers:

Vulcan County	Budget	Budget	Budget
Three-year Operating Plan	2021	2022	2023
TOTAL BUDGETED REVENUES	16,652,237	16,288,565	16,424,282
TOTAL BUDGETED EXPENSES	(17,048,348)	(16,712,114)	(16,860,574)
EXCESS OF REVENUES OVER EXPENSES	(396,111)	(423,549)	(436,291)
RESERVE AND CAPITAL TRANSFERS:			
Transfer of Amortization	4,684,267	4,660,499	4,660,499
Transfer from Reserves	1,231,972	156,337	156,338
Transfer to Reserves	(3,697,108)	(2,663,382)	(2,671,640)
Transfer to Capital Functions	(1,803,546)	(1,705,546)	(1,684,546)
Transfer to Other Functions	(19,473)	(24,359)	(24,359)
TOTAL RESERVE AND CAPITAL TRANSFERS	396,111	423,549	436,292
TOTAL NET EFFECT ON ACCUMLATED SURPLUS	\$ 0 \$	0 \$	0

The projections will change when the final assessment and tax information becomes available. Should the County's assessment decrease, it will reduce or eliminate the surplus. If there are no assessment decreases (or perhaps there are increases), the County will have an opportunity to allocate excess funds to reserves. Since this information is not known at this time, the surplus is shown here until the County can determine the appropriate course of action.

RESERVE AND CAPITAL TRANSFERS - continued

The transfer of amortization is the offset to the amortization expense included in the operating expenses. This transfer is to apply the reduction in the net book value of the tangible capital assets (roads, buildings, equipment) to the equity in the tangible capital assets.

The transfer from reserves is the amount of funding used from operating reserves that have been set up in prior years. This can include the reserves that have been built up specifically for operating expenditures or that have been built from prior surpluses (revenues exceeded budget and/or expenses less than budget).

The transfers to reserves are the amounts of funds that are raised in the operating budget to be used for either future operating projects or capital projects:

• Currently, the County has a twenty (20) year capital funding program (as discussed in the five-year written capital plan). In the plan there is approximately \$2.5 million put into capital reserves for this program (funding 2021 and future years capital acquisitions).

The transfer to capital function is the offset to the capitalization of operating expenses related to road and bridge construction. This ensures those costs are added to the cost of the assets and they can then be properly amortized over their useful life.

FIVE-YEAR CAPITAL PLAN (2021-2025)

FIVE-YEAR CAPITAL PLAN

The purpose of a five year capital plan is to provide an overview of the capital requirements for the County in upcoming years and to ensure that the County is in a position to fund those purchases in a fiscally responsible manner. One of the results of implementing a capital plan is a reduction in fluctuations of tax rates since the County will be building reserves to draw on for capital acquisitions rather than using tax dollars directly.

The County currently has a twenty year capital funding program. All costs and estimated replacement dates for the County's capital assets are projected. Once an asset is due for replacement, the funds necessary to purchase it will have effectively been saved up via additions to capital reserves. For example, a grader with an estimated replacement cost of \$500,000 is scheduled to be replaced in 5 years; therefore, a total of \$100,000 would be allocated to a reserve each year so that when the grader is to be purchased after 5 years, the funds will be available.

The capital reserve balances and future requirements are actively monitored by County administration. Currently, the County is contributing \$2.5 million per year to capital reserves to meet the needs of the plan.

This twenty year capital funding program is considered a "living" document and is updated on an annual basis to take into account changes in capital reserve levels, changes in years of replacement, and the projected replacement costs. Although this capital funding program spans 20 years, as the year of replacement gets closer to the current year the estimations of replacement costs typically become more accurate.

CAPITAL PLAN

The following is the 2021-2025 projected capital plan:

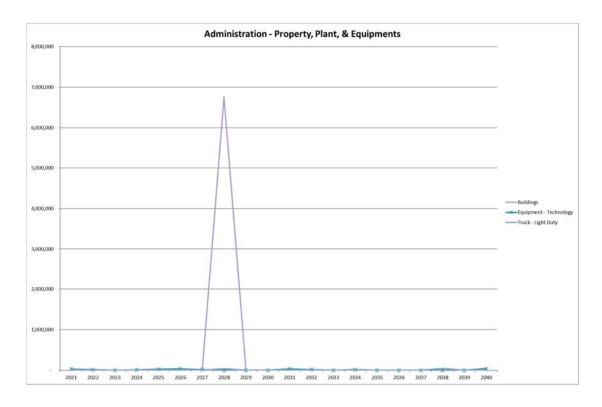

Vulcan County Capital Budget and Projections	Budget 2021	Projected 2022	Projected 2023	Projected 2024	Projected 2025
CAPITAL ACQUIRED:					
Land	s -	\$ -	\$ -	\$ -	\$ -
Land Improvement			-	-	-
Buildings	600,335	-	130,710	-	-
Equipment	1,719,078	354,861	1,020,679	2,548,729	1,033,985
Vehicles	388,500	587,293	399,528	683,315	1,037,777
Engineered Structures	2,954,158	5,816,506	2,637,721	2,917,828	7,292,317
TOTAL CAPITAL ACQUIRED	\$ 5,662,071	\$ 6,758,660	\$ 4,188,638	\$ 6,149,872	\$ 9,364,079
CAPITAL FUNDING:					
Capital Grants	\$ 2,742,045	\$ 2,568,638	\$ 2,568,638	\$ 2,568,638	\$ 2,568,638
Sale of Assets	410,500	-	-	-	-
Contributed Asset	010 145	2 242 040	222.605	1 (20 (20	4.053.036
Transfer from Capital Reserves Transfer to Capital Reserves	819,145	2,312,948	- 322,605	1,638,629	4,852,836
Transfer to Capital Reserves Transfer from Operating Function	1,690,381	1,877,074	1,942,605	1,942,605	1,942,605
Transfer to Operating Function		,,,,,,,,	-,,	-,,	,,
Capital Lease acquired					
TOTAL CAPITAL FUNDING	\$ 5,662,071	\$ 6,758,660	\$ 4,188,638	\$ 6,149,872	\$ 9,364,079

As shown above, there is some volatility in the amount spend on engineered structures for the next 5 years. These fluctuations are due to the number, size, and timing of road and bridge projects, primarily. The capital reserves have been built up over the past few years as part of this capital funding program to allow for these purchases while minimizing the future tax impact.

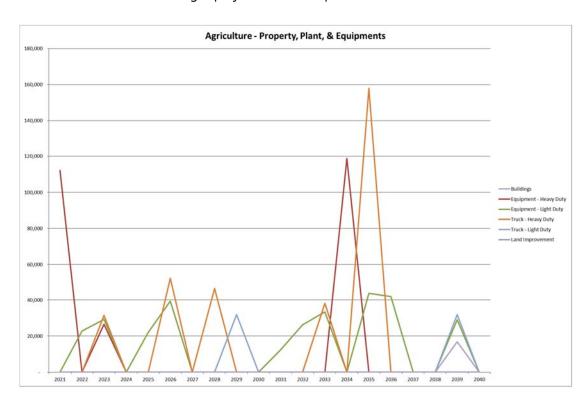

County Council approves the road and bridge capital programs. During the approval process, they review all projects, determine priorities, and determine the year of replacement. This is reviewed by Council every year during budget approval and can be modified if required.

The following pages include charts for the replacement of the capital currently included in the capital funding program.

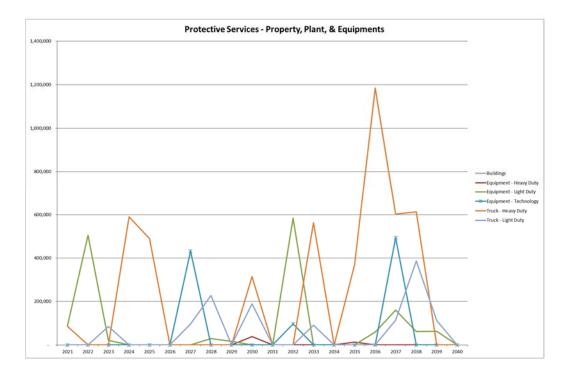

CAPITAL PLAN - continued

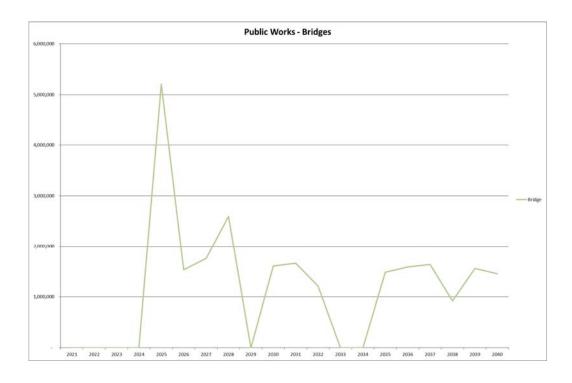

Note: A new administration building is projected to be required in 2027. This will be re-evaluated annually.

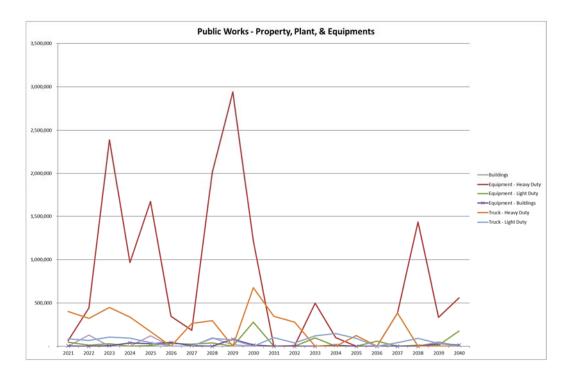

CAPITAL PLAN - continued

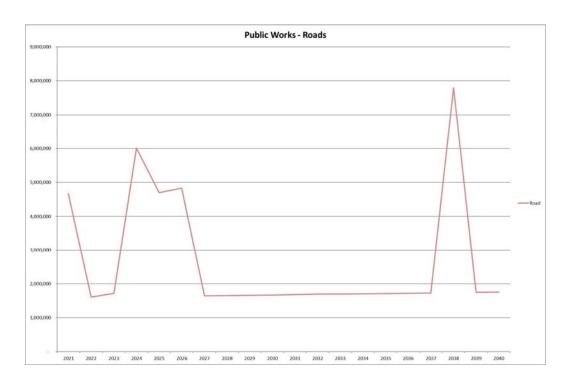

Several fire engines are expected to require replacement in 2026-2028

CAPITAL PLAN - continued

The capital budget currently includes 2 graders and 2 scrapers being purchased in 2029.

A large number of roads are expected to require construction or reconstruction in 2026. Due to the volume of work this would require, these projects will be reviewed and likely spread out over a few years.
